To Whom It May Concern,

I am writing to recommend the services of John Boone and RJM Logistics. I have been utilizing RJM for my transportation needs for the past few years, and have always been completely satisfied. They do an excellent job, are always punctual, and offer competitive rates.

They do all of our high value loads that require extra insurance and sometimes added security. They are great at communication. I know where my trucks are at all times. John Boone and RJM have offered me and my company great customer service.

I am happy to recommend the services of RJM Logistics. If you have any questions, feel free to contact me.

Thank you,
